Product Description

Household Rotary Air Dehumidifier With LED Ambient Humidity Display

The 5.5L capacity rotary wheel dehumidifier is a compressor-free appliance designed to efficiently reduce humidity levels in indoor spaces without the use of traditional refrigeration-based compression technology. This innovative dehumidifier employs a rotary wheel mechanism, which is a desiccant-based system that absorbs moisture from the air.

In the process of use, the product does not need to be supplemented with hygroscopic agent, which is convenient to repair and maintain and has low operation and maintenance costs. This product also has the function of air purification with HEPA filtration. In this clean air environment, the performance of the rotary will hardly deteriorate and is very durable. Product features: 2, 4, 8 hours timer setting, negative ions, LED ambient humidity display, an external continuous drain, control humidity display with body sensor.

At the same time, we can also provide OEM, OBM, ODM services, and we can produce products that only belong to your brand.
