

Reverse Osmosis Countertop RO Water Purifier Filter Machine For Home

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: Envitek
- Certification: ETL CB EMC LVD ERP ROHS
- Model Number: AR303B-75G
- Packaging Details: color box+master carton
- Delivery Time: 30
- Payment Terms: L/C, T/T, Western Union, MoneyGram
- Supply Ability: 10000 PCS/MONTH

Product Specification

- Material: ABS
- Color: White Or Customize
- Dimensions (L X W X H (Inches): L461*W236*H411mm
- Function: Hot And Other Temperature
- Installation: Desktop
- Application: Home
- Highlight: **Home Countertop Ro Water Purifier , Countertop Ro Water Purifier Filter Machine, Reverse Osmosis ro machine for home**

Product Description

Countertop RO Water Machine: The Source of Purity, Within Reach

Imagine on your kitchen countertop, there stands a countertop RO water machine quietly, which is like an "elf" guarding the purity of the water source.

Its appearance is exquisite and elegant. The compact design enables it to easily adapt to various countertop spaces and become a beautiful scenery line in the kitchen.

It contains powerful technological power inside. The RO reverse osmosis technology is like a precise filter screen that filters out tiny impurities and harmful substances in the water one by one, leaving only the purest water molecules.

During the filtration journey, multi-stage filter elements work together. The PP cotton filter element blocks sediment and rust, and the activated carbon filter element eliminates odors and residual chlorine, jointly reducing the burden on the RO membrane to ensure that every drop of water reaches an extremely high purity standard.

This water machine also has the ability of intelligent perception. When the water source is short, it will automatically pause; when the water storage bucket is full, it will also stop making water in time, energy-saving and worry-free.

The water it produces is pure, clear, and tastes sweet. Whether it is a cup of warm water in the early morning or the water demand when cooking delicious food, it can perfectly meet your needs.

The countertop RO water machine brings the pure water source right at your fingertips and injects freshness and health into your life at any time.

Product Specification:

Model	AR303B-75G
Filtration Capacity	11.8L/h
Rated Power	48 W/2150W(220V)
Purification Capacity	1500L
Source Water Tank	5.0L
Product size	L461*W236*H411mm

Product Features:

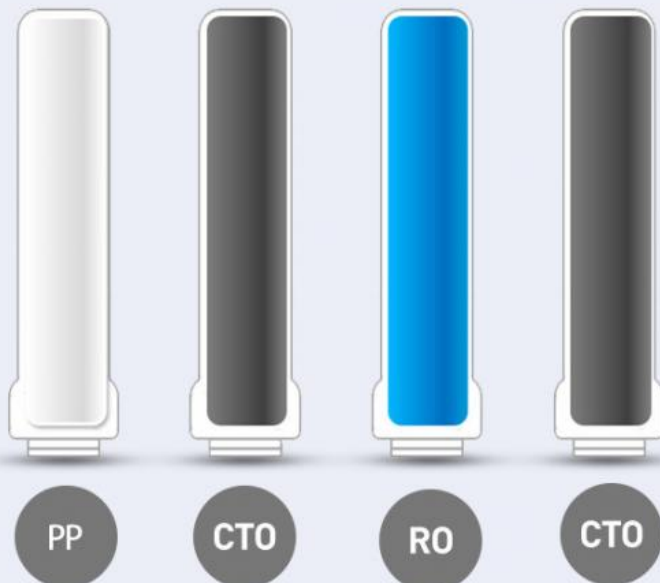

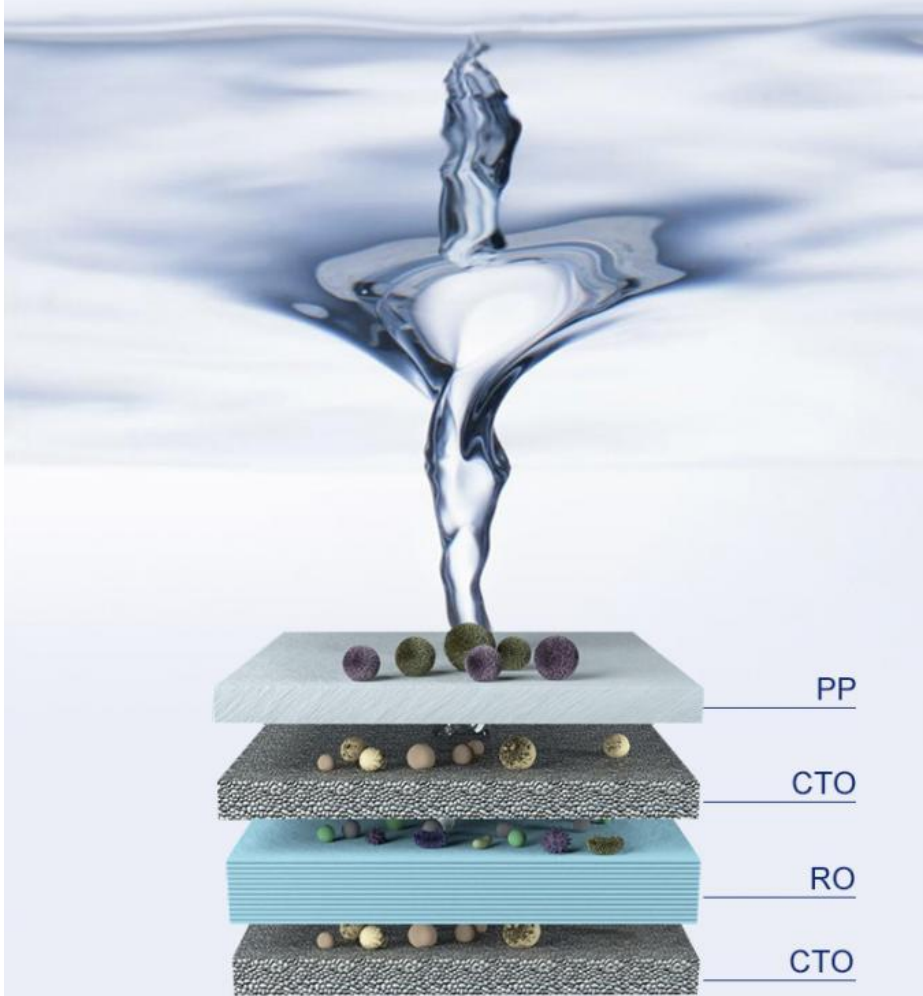

- Counter top reverse osmosis water filter system with pitcher in one full set
- No assembly required, no installment, easy to use
- 5 Levels of filtration, removes up to 99% of all contaminants
- 4 stage water temperature with instant heating system in 3 seconds
- Quantitative water setting: 150ml/250ml/Continuous
- LED screen displays real time filters status and TDS value
- Water-saving designed
- UV C light: removal of bacteria, viruses, and mold spores
- Child Lock
- Wi-Fi for option

Water Purifier Principle:

5 Stage Filtration System

5 Stages Filtration System

5 Levels of filtration, PP+Composite CTO+RO+CTO, bring you unlimited ultra-fresh, clean, great-tasting water

Stage1:Pre-filter (PP) removes big particles of dust, mud and rust stains.

Stage2 and 3:The Composite CTO filter eliminates unseen dregs and

harmful odors.

Stage4:The High grade 0.0001 micron RO filter removes up to 99.9% of contaminants including chlorine, lead, heavy metals, fluoride, VOCs, chloramine, etc.

Stage5:The post-carbon filter (CTO) help improve the taste of the water
