

48W RO Water Filter Reverse Osmosis Countertop ETL CB Certified

Our Product Introduction

for more products please visit us on envi-tek.com

Basic Information

- Place of Origin: China
- Brand Name: Envitek
- Certification: ETL CB EMC LVD ERP ROHS
- Model Number: AR304B-75G
- Packaging Details: color box+master carton
- Delivery Time: 30
- Payment Terms: L/C, T/T, Western Union, MoneyGram
- Supply Ability: 10000 PCS/MONTH

Product Specification

- Color: White Or Customize
- Installation: Desktop
- Application: Home Used
- Custom: Accepted
- Temperature: Room
- Material: ABS
- Highlight: **48W water filter reverse osmosis countertop, CB Certified water filter reverse osmosis countertop, 48W countertop osmosis water filter**

Product Description

Countertop RO Water Machine: The Pioneer of Water Quality Guard

When you walk into the kitchen, the countertop RO water machine comes into view. It is the pioneer of water quality guard, bringing you freshness and purity.

Its design is compact, and the lines are smooth, reflecting the perfect fusion of modern technology and aesthetics.

Its powerful RO reverse osmosis system can efficiently remove harmful substances such as heavy metals, bacteria and viruses in the water, allowing you to drink every drop of water with confidence.

Moreover, its filter element is easy to replace and has a low maintenance cost, providing you with continuous high-quality water purification services.

For example, when you wake up in the morning and wash with the water it prepares, start a refreshing day; when you are busy for a day, a cup of warm water purified by it can relieve your fatigue.

The countertop RO water machine always stands in your kitchen and guards your water use health.

Model	AR304B-75G
Filtration Capacity	11.8L/h
Rated Power	48 W
Purification Capacity	1.2L
Source Water Tank	5.0L
Product size	L461*W236*H411mm

Product Features:

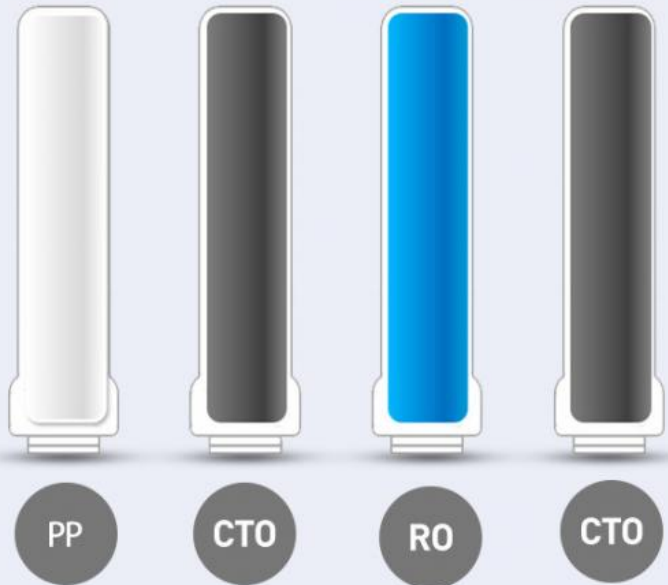

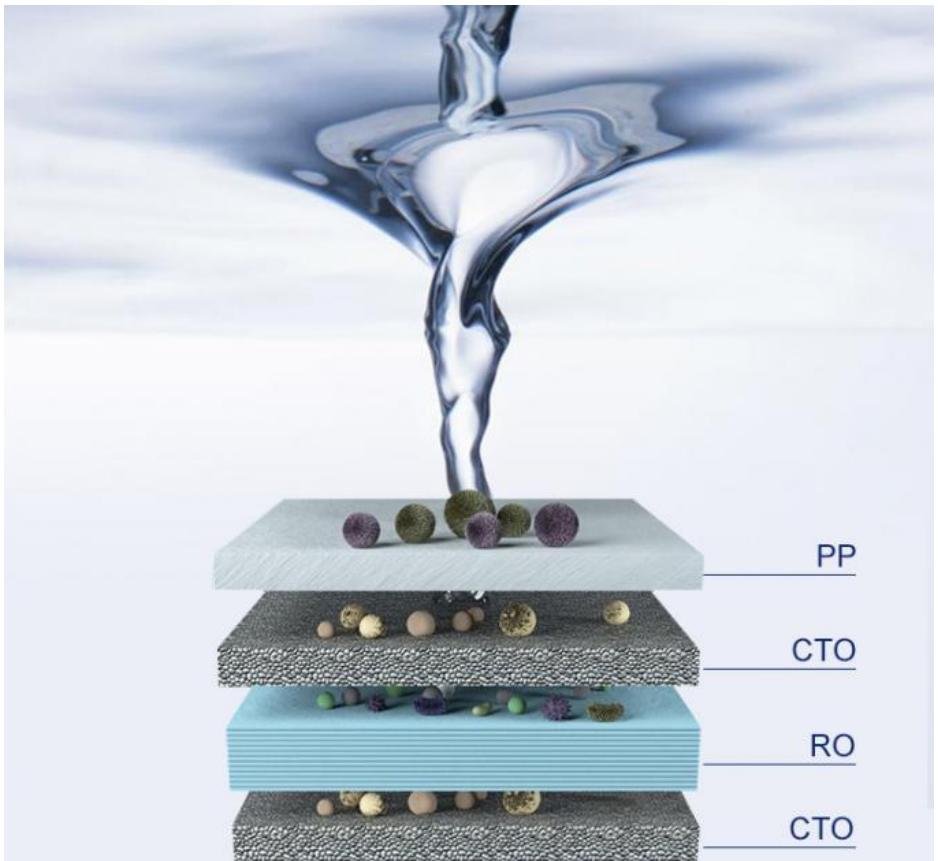

- Counter top reverse osmosis water filter system with pitcher in one full set
- No assembly required, no installment, easy to use
- 5 Levels of filtration, removes up to 99% of all contaminants
- 4 stage water temperature with instant heating system in 3 seconds
- Quantitative water setting: 150ml/250ml/Continuous
- LED screen displays real time filters status and TDS value
- Water-saving designed
- UV C light: removal of bacteria, viruses, and mold spores
- Wi-Fi for option

Food Waste Disposer Principle:

5 Stages Filtration System

5 Levels of filtration, PP+Composite CTO+RO+CTO, bring you unlimited ultra-fresh, clean, great-tasting water

Stage1:Pre-filter (PP) removes big particles of dust, mud and rust stains.

Stage2 and 3:The Composite CTO filter eliminates unseen dregs and harmful odors.

Stage4:The High grade 0.0001 micron RO filter removes up to 99.9% of contaminants including chlorine, lead, heavy metals, fluoride, VOCs, chloramine, etc.

Stage5:The post-carbon filter (CTO) help improve the taste of the water
